WHAT IS ODYSSEY-MAGELLAN?

Odyssey-Magellan provides highly gifted learners with a challenging study of math, science, communication arts, social studies, and foreign language in a stimulating classroom environment. Students in grades 3 through 6 attend school on the Odyssey campus located at Highlands Elementary School. These students are learning French and also have an accelerated math curriculum, which will prepare students to take algebra in seventh grade. Students in grades 7 and 8 attend school on the Magellan campus located at Wilson Middle School. Students are able to join their middle school peers for courses in physical education, chorus, band, orchestra, as well as other school activities and extra-curriculars. The coursework at this level offers a unique opportunity for students to explore and to learn beyond the standard curriculum. Themes weave throughout the curriculum to bring depth and breadth to students' experiences.
